

# ONE-PARTY RULE HAS FAILED OUR SCHOOLS

## OUR CHILDREN DESERVE THE VERY BEST EDUCATION

Ohio's Supreme Court declared our school funding system's inequities and reliance on property taxes unconstitutional more than two decades ago.<sup>1</sup>

*It's been 23 years, and the Republican-run State Legislature still hasn't fixed it.*

Now our schools are in crisis, and property owners are carrying a burden that is too heavy for too many.

# COLLEGE DEBT IS CRUSHING OUR YOUNG PEOPLE

★ **The Republican-run State Legislature has systematically defunded our colleges and universities**, such as Wright State University. WSU is a vital engine of creativity and economic strength for our region, one we cannot afford to lose.

1 Institute for Research on Higher Education

2 The Institute for College Access & Success

★ **Under Republican control Ohio has sunk to 45th out of the 50 states for college affordability**,<sup>1</sup> while students are graduating from Ohio's universities with an average of more than **\$30,000 in loan debt**.<sup>2</sup> Many owe much more.

★ **We should invest in Ohio's future** by providing our children with the opportunity for a quality, affordable education, not burdening them with massive debt. That would **reward our communities** and provide employers such as **Wright-Patterson AFB** with an educated and capable workforce for the future.

**OHIO NEEDS A NEW APPROACH!**

**Send Kim McCarthy to  
Columbus to fight for our  
colleges and students!**
